DETAILED ACTION

Examiner's Amendment ✓

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with William Fisher on 4 May 2005.

3. The application has been amended as follows:

Claim 8 has been cancelled.

4. This application is in condition for allowance except for the presence of claims 10-12, 21-25, and 27-30 drawn to an invention non-elected without traverse. Accordingly, claims 10-12, 21-25, and 27-30 have been cancelled.

Specification

5. The examiner acknowledges the amendments to the specifications correcting the numerous references to specific claims.

Allowable Subject Matter

6. Claims 7 and 9 are allowed.

7. The following is an examiner's statement of reasons for allowance: ✓

Regarding independent claims 7 and 9, the claims are considered allowable for reasons of record as presented by applicant is the response filed 15 March 2005.

In addition, the examiner notes that, contrary to the examiner's original position, the McKeever reference is viewed as specifically teaching away from the use of a fluorescence medium with a lifetime of no longer than 2 μ s because the lifetime must be at least greater than approximately 10 μ s (see col. 12, lines 56-64, which explains that the lifetime needs to be at least greater than the 10 μ s relaxation time of the bi-alkali photomultiplier tube. The examiner also notes that while the use of BaFBr:Eu²⁺ as a stimuable phosphor, particularly for radiation imaging applications, is generally known in the art, such systems are not considered as methods of "measuring a dose of radiation" per se (such systems are more concerned with the relative difference in the accumulated dose among different portions (pixels) of the detector, and not the actual accumulated dose), and therefore represent a non-analogous use of such phosphor.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Albert J. Gagliardi whose telephone number is (571) 272-2436. The examiner can normally be reached on Monday thru Friday from 9 AM to 5 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David P. Porta can be reached on (571) 272-2444. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
